

## **Olansky Dermatology**

**Who you are:** The person we are looking for is a well-rounded dermatologist. This person is responsible and compassionate, exceeds ethical and professional standards, is positive, and a self-starter. The right candidate will be:

- Patient-focused (i.e. go the extra mile to read about a condition, confer with the experts, attend on-going CMEs).
- Team-focused (i.e. enjoy working in a team environment with doctors/NPs/PAs, help supervise and educate mid-levels)
- Community-focused (i.e. attend sponsored events, give talks, raise money for causes)

**Who we are:** At Olansky Dermatology Associates, we believe that everyone deserves healthy skin. We provide our families with compassionate skin care and medical education, giving them the comfort and confidence to live healthy and beautiful lives. We put our patients first, work to constantly improve our patients' experience, and demand excellence from our entire team. We value focusing on our patients, our team, and our community. We are a well-established dermatology practice in Atlanta with over 35 years of providing excellence to our community. We are a team of doctors and mid-levels that love patient-care and strive to maintain a sense of "family business" in a complex medical environment.

**The position:** This is a full-time position. The doctor will work 4-5 days per week and see an average of 30-35 patients per day. The doctor will see a mix of "bread and butter" cases, as well as challenging medical dermatology referred from the community. The doctor will perform surgery and cosmetics as desired.

**Locations:** The responsibilities will be split between our metro-Atlanta locations; currently in-town (Buckhead) and suburban (Roswell).

**Compensation:** We are offering a place to grow and add value. The right candidate will be paid commensurately with work done and value generated.
